BASE STEALING SEASON THIS YEAR

Managers Devoting More Time to Development of Speed on Base Paths - Excellence in This Department Gave Giants Pennant Last Year.

motion and the arrival of the ball at second or third from the catcher.

Not only will there be more attempts to steal second this year, but third base will be the object of a determined attack. Third base has been neglected too long. Many catchers freely astert it is easier to get a man stealing second than one stealing third.

A good love runner makes life mis-

A good buse runner makes life mis-erable for a nervous pitcher. The Glants have a false start from first which make a tame start from make which imprets many a heaver. The runner, with a fair lead, starts at full speed, to stop after a half dozen stops, and dive back. The effect on the pitcher is to "get his goot." As a learn the Giants stole 347 bases last season, of this number Devers stole the Of this number, Devore stole the most, 61; Snodgrass, 51; Merkle, 49; Murray and Herzog, 48, and Doyle 38.

CAPT. FLETCHER STRAINS

ANKLE IN PRACTICE. Will Be Unable to Play Against Scdality Nine Today.

Owing to a strained ankle received while sliding to second in practice Monday afternoon, Capt, Bob Sietcher will be absent from the lineap this afternoon when the N. F. A. boys line up against the nine representing St. Joseph's sodality. Fletcher's in-jury is not a serious injury but will probably keep him out of the game for a short time. His place at first will be occupied today by Charles Croker, whiles will be on the slab. Boyd has been added to the Academy Insup-and will amount this effection.

been added to the Academy lineup and will appear this afternoon at third, McCormick being shifter to right field. The other positions will probably he filled by the same players as were used last Saturday.

The Sodality will be represented by a strong team that should give the school beys a good hard fight. The Sodality line up will be as follows: Simcox p. Waish c. McIntyre 1b, Nichols 2b, Shea 3b, Murphy ss, Calkins, Hynds, Houlihan and Counihan outfield.

CHIEF MYERS CLASSED

AS MOST VALUABLE CATCHER. Punished the Ball for 332 and Finished High in Fielding.

Had the queetlon, Who is the most valuable catcher in baseball? been asked four years ago, the answer un-doubtedly would have been Johnny

It is anticipated that the summer of 1912 will be the greatest base running season of recent years in basebail. Reports from every big league camp have been that the managers were devoting many hours to the development of this most spectacular department of the rame. The Giants won the Naticnal league pennant by their base running last year. Their example made the managers of other teams do much thinkins.

In every camp, the star base runners have been showing the recruits by example the little tricks that help a runner toward the plate without depending upon the batter. The result is bound to be more efficiency on the paths.

Often the apparently reckless base runners are students. Their brain works faster than the man they match wits with. They secure a long lead and "feel" the instant it is safe to start to obtain advantage of every fraction of time between the pitcher's motion and the arrival of the ball at second or third from the catcher.

Not only will there be more attempts to steal second this year, but third base will be the object of a determined attack. Third base has been neglected too long. Many catchers freely ascert it is easier to get a man. Chiefs work last season gives him a decided edge on any of his rivals.

Catchers with good battling eyes are becoming rarer. There were 21 catchers in the big league who participated in more than 50 games last season. Of this number 17 hit under 1.250 and only six better than 275. Of the four catchers hitting over 380 last season, the Giants had two. Ladd of the Athletics hit better than any catcher in the majors, his average being 353. However, as he was in only 68 games, he could hardly be placed above Myers, who punished the ball for an average of .232 in 128 games.

Myers finished third among National league batting leader. However, if the Chief had been a little faster on his feet he would have beaten out several hits, which would have placed him shead of the Flying Dutchman by a good mergin.

good margin good margin.

However, Myers is not only the best batsman among National league catchers, but he also finished high in the fielding records. Only three National league maskmen had better fleiding averages, Moran, Needham and Bergen. Neither Moran nor Needham was in 50 games and Bergen is through as a big leaguer. Only two American as a big leaguer. Only two American as a big leaguer. Only two American league backstops, Sullivan of the White Sex and Blair of the Highland-White Sex and islair of the Highlanders, had better fielding averages than the big Indian of the Glants. To show how Myers has improved in fielding in one season, it may be noted that in 1310 he finished 13th among National lengue catchers. In 1310 he made 25 errors and had 17 passed balls in 117 games, and in 1911 he made only 18 errors and had but 10 passed balls in 128 games.

Another strong feature in Myers' work is his ability to go behind the bat day after day without showing any day after day without showing any signs of wear or tear. Stanage of the Tigers was the only man who worked harder than Myers last season. The hefty Detroiter caught 141 games, against 178 for Myers. Archer of the Cubs and Thomas of the Athletics were the other catchers who caught more than 100 games last season.

The route for the 24 hour endurance run of the Dayton, O. Motorcycle club has been extended into Michigan, and the riders will make the control as far north as Grand Rapids and return by way of Toledo and Columbus,

FINANCIAL AND COMMERCIAL

HAD DEPRESSING INFLUENCE.

Titanic Disaster Has Visible Effect in the Stock Market.

New York, April 16.-Trading on the atock exchange today seemed to be governed in large part by sentimental considerations. The sinking of the steamship Titanic exercised a depress-ing influence which builtsh manipulation was powerless to shake off. The professional element esponsed the short side in greater numbers and their attempts to depress prices were un-doubtedly assisted by sales of long

Opening prices were very irregular, with gains predominating, despite London's heavy tone. The feature of the initial dealings was the break of one to three points in the several securities of the international Mercancurities of the international Mercan-tile Marine company, which owned the ill-fated Titanic. These issues subse-quently went lower. There were also early declines of two points in Ameri-can Can common and 13-4 in Canadian Pacific, the former soon recovering and attaining its best price of the previ-ous day, which constituted its high record. The copper issues were very ptominent for their strength, especial-ly Amalgamated, whose directors are by Amalgamated, whose directors are expected to meet on Thursday and declare a dividend at the rate of four per cent, or double the present disbursement. Transactions in Amalgamated during the greater part of the session were larger than those in steel, which usually leads in succession. which usually leads in respect of ac-

Prices improved before noon, but in the early afternoon another selling movement obliterated virtually all gains and brought the general level weil under pesterday's close. Fluctuations were narrow in the last hour, at which time the decline was partly arrested, although some of the specialties manifested acute weakness, American Tobacco yielding over five points and Lorillard almost as much. In the final transactions activity increased and a further hardening was noted. The closing was barely steady, although recoveries ran almost to a point in the speculative favorities. With the exception of Union Pacific Reading, Mercantile Marine issues and United States Steel, few net losses exceeded a point, while some gains were shown. Prices improved before noon, but in point, while some gains were shown.

The result of tomorrow's meeting of
the eastern railroad presidents to con-

engineers was viewed with little op-March domestic exports showing an increase of about \$30,000,000 over the corresponding month last year, in spite of a large falling off in breadstuffs, was

DOINGS IN THE AUTOMOBILE WORLI

Good Highway to Unite Norwich and Worcester Will Facili tate Touring in Eastern Connecticut-Road and Shot Hints.

That the addition of anesthetic ether as a primer will aid in starting the motor is generally known among motoring medical men. It is very useful to them, since they are compelled to allow the car to stand in all kinds of

weather. There are 100,000 motorists in Eng-

Totals Will II is a the leader is elephant gray. Battleship gray, automobile gray, French cadet, and onys gray offer a choice of popu-lar grays. All these grays have a white-lead base and are durable. Moreover, they are seasonable colors at any time of the year, show dust and ef-fects of road service least of all colors and look neat until worn out.

For touring some sort of a dust coat or alip-on is essential to comfort. A number of coats designed for this service are to be found in the supply stores are to be found in the supply stores among which may be mentioned the English slip-on, the gaberdine and the rubberised raincoat, while pole coats are very popular for spring

In London some of the big trucks are getting as high as 20,000 miles out of a set of solid rubber tires, yet there are cities in America where the tire maker will not guarantes 2,000 miles. Deplorable conditions of the street pavements are responsible for this. It is further a fact that it is possible in America to get nearly twice as much tire mileage in one city as in another. tire mileage in one city as in another, due solely to the street pavements.

DANIELSON AND PUTNAM AUTOMOBILE DOINGS.

Good Highway to Be Established Between Norwich and Worcester-Hotel Men Anticipate Big Touring Season.

Not more than 30 per cent of the though.

Complete or gradual motorization automobile owners in Windham course Complete or gradual motorization automobile owners in Windham council fire departments is now the order to fire departments is now the order to the day in all up to date communisties.

Makers of motor cars are putting reduced prices into effect. This reduction is the result of a falling off in the price of crude rubber, which the dealers were given the benefit of as New England Telephone community.

The "blue bell" of the Southers of as adorns the side of the new runabout that has been supplied by the company to Wire Chief Charles T. Thayer, who heat transfer will be interfered with, and the result may be a loss due to the rarefying effect, although in some cases this same crust may serve to limit the head that will pass to the jacket, and a gain may result. This is not desirable on the ground that the crust will not remain at a constant thickness, hence it does not represent a stable condition.

That the addition of the southers address the side of the new runabout that has been supplied by the company to Wire Chief Charles T. Thayer, who has supervision of lines and plant department employes in the Putnam, Danielson and Moosup divisions, Seventees to be used in such service have been purchased by the company.

Pleasure as well as business services may be gotten out of auto trucks. A demonstration of this was given last Urgele Level.

Saturday night, when Representative Urgele Lafrance of Plainfield took nearly a score of members of the Delphi club from his home in Central Village to attend a banquet of the organization at the Putnam Inn.

A first-class highway practically all the distance from Norwich to Worces-ter will become a reality before the 1912 touring season is far advanced. The state highway department in con-junction with the towns of Killingly and Thompson has plans completed to There are 100,000 motorists in Englished now, and before the year is out there should be 25,000 more. Praotically all the British motor making firms have arranged for an increased output, and apparently all seem confident as to the prospects.

Perhaps no colors are more universally popular than grays. Just now the least than grays. Just now the least than grays. Just now the least to the Wheaton farm.

The use of heavy service trucks, which will be more general than ever this summer, is attracting the attention of town officials, who are anxious about the effect of four, five and six ton loads on country highway bridges that were not intended to withstand such heavy strains as is being put upon them. To prevent liability on the town in case of socidents to trucks at such places it may become necessary to carefully supervise the movement of such traffic.

Hotel men in Eastern Connecticut towns say that up to date this year touring parties have been a rarity, only a few of the most hardy enthusiasts venturing out for trips of any length. They look, however, for a big season, and are preparing to eater especially to this class of trade, without neglecting their results business. Surday to ing their regular business. Sunday is expected to be the best day of the

The advice of automobile experts to prospective buyers hereabouts is to get their cars from some dealer in or close to their home territory. If a car goes temporarily wrong, the agent who can be quickly reached is more apt to be interested in a car that he has sold

than if he lived in Kalamazoo. The usual trouble about prompt de-liveries is being experienced by mea resident in Danielson, Putnam and Plainfield who placed orders during the winter for cars. Most of them have been faithfully promised for May 1,
